

It's small in size – but don't be fooled. It's big on functionality!

HP iPAQ 514 Voice Messenger

With the powerful and easy-to-use functionality of a Smartphone, the HP iPAQ 514 Voice Messenger has it all – the flexibility of a mobile phone, the capability of a handheld organiser, the constant contact to your e-mail device and the power of an office phone system.

Work in motion

Take your office with you on the road with built in productivity apps and office functionality. Easily scan, read, and reply to e-mail^{1,2} – Microsoft Exchange, POP3, or IMAP. Reply to emails without typing, use VoiceReply^{1,2}. Get to your most important Smartphone tasks quickly and easily using personalized shortcuts. Work where you want, when you want with the familiar Windows interface. Mobile versions of Microsoft® programs will help you get your work done on the go^{1,2}.

Talk for hours

Featuring up to 6.5 hours of talk time and up to 160 hours of stand-by time. Enjoy clear voice quality. Save your airtime minutes while in the office with VoIP (Voice Over IP) over your wireless LAN (WiFi) and your company's PBX phone system – having the advantage of less cost and just one phone number. Use a Bluetooth headset or the built in speakerphone. Store numbers for speed dialing your most important colleagues. See who is calling with Caller ID – the phone number, name, or even a photo.

Speak your mind

Your voice has more power than ever before. Voice Commander converts your phone into your personal "Voice Valet". Over 20 speaker independent commands supported. Use Voice Commander to tell the HP iPAQ Voice Messenger to perform a multitude of tasks: phone tasks, E-mail tasks, calendar tasks, productivity tasks

¹ A standard GSM/GPRS/EDGE infrastructure, Wi-Fi, other Bluetooth-enabled devices, other equipment and a service contract with a wireless airtime provider may be required. GSM/GPRS/EDGE Wireless Internet access requires separately purchased Internet service contract. Check with service provider for availability and coverage in your area. Not all web content available. GPRS/EDGE may not be available in all networks. GPRS/EDGE data transmission speeds may vary due to network capabilities and other conditions. Establishment and continuation of a GPRS/EDGE connection depends on network availability, provider support and signal strength

² EDGE (Enhanced Data for Global Evolution) is a new standard for wireless wide-area data communication being deployed by GSM carriers worldwide. Actual download speeds may vary. Coverage is subject to transmission limitations and terrain, system, capacity and other limitations. Not all features and service options are available in all areas.
